Cashless Solution for Healthcare Facilities

Overview of the ValuePort III

The CBORD® ValuePort III is a versatile, unattended cash-to-account kiosk. Employees may deposit cash directly into their account and view their account balance at any ValuePort III. The ValuePort III also makes the distribution of inexpensive gift cards easy with its optional card-dispensing capability.

Gift Card Purchases

ValuePort III makes it easy for patients, visitors, vendors, and employees to purchase gift cards at any time, twenty-four hours a day. The ValuePort III dispenses gift cards in predetermined amounts and allows users to add funds to existing gift cards. Odyssey PCS™ keeps track of all your gift card transactions and provides you with detailed reports.

Flexibility and Accountability

The ValuePort III features an integrated receipt printer, providing users with a complete record of their transactions. With the CBORD ValuePort III, your employees, patients, vendors, and guests can deposit funds to their online debit accounts whenever needed—day or night. The ValuePort III is IP addressable, making it easy to install.

Security Features

The ValuePort III may be wall or pedestal mounted. It complies with ADA standards when installed with the pedestal. It is protected from vandalism and theft with a high-security cabinet and T-lock for maximum protection.
